What was the first mobility like for the Polish team. Find out:

My favourite moment in the wholeweek in Spain was the firstday. I hadbeenpreparing for the exchange for months. When we came to Guadalajara I was like " OMG I don'tknowanything in english." I forgotabouteverything. I justsaidBasic wordslike "yes" and "no". That was horrible. But then I met my Spanish family, my host studentCeci and that was reallyhelpfull. We went to diner with Zuza, Alba and her family. That was worthwhile. We tasted a lot of typicalSpanish food. The restaurant was cosy and the wholeatmosphere was exceptional. Then I came to my hosthouse and later we went to anoficialmeeting in school. That was anawesomeday.

The bestwhat I rememberis the farewell party and walks with my host IreneVelázquez to the city and the "Olimpic Games".

At the farewell party we danced limbo, there was a super atmosphere and all of uswere sad with the fact that we had to go home.

I liked to hang around with Irenebecausesheshowed me so much of hercity,and we had a greattimetogether.

The "Olimic Games" wereveryinteresting and one of ourrepresentatives Jakub Banyś was the winner in most of the competitions.

During my stay in Guadalajara I visited a lot of monuments. I especiallyliked Park Retiro and PresidentalPalace and got to know the Spanish culture as well as typical Spanish food and somehistory. In my opinion the wholemobility was verywellorganizedthanks to the involvement of students and teachers. Thatweek was veryinteresting, particulary a lot of trips, a very nice day with Olimpic Games and a reallyinspiringlessonaboutstereotypes . I trulyrecommend Erasmus experience to every student.
